## Steel Grade ASTM Class ?Type A Chemical information, Mechanical properties

Physical properties, Mechanical properties, Heat treatment, and Micro structure, E-mail:sales@steel-grades.com

This page is mainly introduced the ASTM Class ?Type A Datasheet, including chemical information,mechanical properties, physical properties, mechanical properties, heat treatment, and Micro structure, etc. It also contains the use of ASTM Class ?Type A,such as it is commonly used in bars, sheet,plates, steel coils, steel pipes,forged and other materials application.

## Datasheet for Steel Grades Mould Steel ASTM Class IIType A

| ASTM Class ?Type A Standard Number: |          |               |               |              |
|-------------------------------------|----------|---------------|---------------|--------------|
| Area                                | Standard | Standard Code | Standard Year | Descriptions |
|                                     |          |               |               |              |

| ASTM Class ?Type A Chemical composition(mass fraction)(wt.%) |         |         |             |  |
|--|---------|---------|-------------|--|
| Chemical   | Min.(%) | Max.(%) | Similar (%) |  |

| ASTM Class ?Type A Physical Properties |         |             |  |  |
|--|---------|-------------|--|--|
| Tensile strength                       | 115-234 | σb/MPa      |  |  |
| Yield Strength                         | 23      | σ 0.2 ≥/MPa |  |  |
| Elongation                             | 65      | δ5≥ (%)     |  |  |
| Ψ                                      | -       | ψ≥ (%)      |  |  |
| Akv                                    | -       | Akv≥/J      |  |  |
| HBS                                    | 123-321 | -           |  |  |
| HRC                                    | 30      | -           |  |  |

| ASTM Class ?Type A Mechanical Properties |         |             |  |  |
|--|---------|-------------|--|--|
| Tensile strength                         | 231-231 | σb/MPa      |  |  |
| Yield Strength                           | 154     | σ 0.2 ≥/MPa |  |  |
| Elongation                               | 56      | δ5≥(%)      |  |  |
| Ψ  | -       | ψ≥(%)       |  |  |
| Akv                                      | -       | Akv≥/J      |  |  |
| HBS                                      | 235-268 | -           |  |  |
| HRC                                      | 30      | -           |  |  |

## Steel Grade ASTM Class ?Type A Chemical information, Mechanical properties

Physical properties, Mechanical properties, Heat treatment, and Micro structure, E-mail:sales@steel-grades.com

| ASTM Class ?Type A Heat Treatment Regime |           |           |             |       |
|--|-----------|-----------|-------------|-------|
| Annealing                                | Quenching | Tempering | Normalizing | Q & T |
| V  | √         | V         | V           | √     |

| ASTM Class ?Type A Range of products |   |                               |   |  |
|--------------------------------------|---|-------------------------------|---|--|
| Product type                         | Products                                    | Dimension                     | Processes                                   | Deliver Status   |
| Plates / Sheets                      | Plates / Sheets                             | 0.08-200mm(T)*W*L             | Forging, hot rolling and cold rolling       | Annealed, Solution and<br>Aging, Q+T, ACID-<br>WASHED, Shot Blasting |
| Steel Bar                            | Round Bar, Flat Bar,<br>Square Bar          | Φ8-1200mm*L                   | Forging, hot rolling and cold rolling, Cast | Black, Rough Turning,<br>Shot Blasting,                              |
| Coil / Strip                         | Steel Coil /Steel Strip                     | 0.03-16.0x1200mm              | Cold-Rolled & Hot-<br>Rolled                | Annealed, Solution and<br>Aging, Q+T, ACID-<br>WASHED, Shot Blasting |
| Pipes / Tubes                        | Seamless Pipes/Tubes,<br>Welded Pipes/Tubes | OD:6-219mm x<br>WT:0.5-20.0mm | Hot extrusion, Cold<br>Drawn, Welded        | Annealed, Solution and<br>Aging, Q+T, ACID-<br>WASHED                |

We can produce Mould Steel the specifications follows:
